

Please Help Us Help You.

We consider it a privilege to transform lives, one smile at a time! In addition to the concerns patients have about the functional use of their teeth, we've learned that frequently, they also carry deep concern about the appearance of their smile. That's not surprising, considering your smile is one of the first things people notice about you.

In order to provide the best care to you or your child and get to know you, please take a few quiet moments to fill out the following questions. Children under the age of 10 may require the assistance of a parent.

	A Lot	A Little	Not at All
I have trouble brushing/cleaning my teeth well			
I have difficulty eating and/or drinking			
I have pain in my mouth or jaw			
I have difficulty talking			
I am hesitant to smile			
I cover my mouth when I talk, smile or laugh			
I am embarrassed about the way my teeth look			
People make fun of my teeth			
I worry people are looking at my teeth when I am talking to them			

Please consider the questions below and complete the sentences:

If you could change one thing about the appearance of your teeth, what would it be?

How would that change your life?

Thank You! We are looking forward to meeting with you.
